SUMMARY STATEMENT

KEDC Board President Mike Wittler will present the proposed KEDC budget and business plan for FY2019 and beyond. The KEDC FY2019 funding request from EIC has been incorporated into the draft EIC budget for FY2019. The EIC will have an opportunity to review the budget, funding request, and work program and provide feedback to the KEDC at the meeting. Future action on the terms of a Funding Agreement with KEDC will be necessary to effectuate the contractual relationship, as FY2018 represents the third year of an existing three-year contract the EIC has had with KEDC for economic development services.

RECOMMENDED ACTION

Review, consider and provide feedback regarding the KEDC FY2019 Budget and proposed work program.

Re: Funding Request for FY 2018/2019

Dear Mr. Early:

The Kerr Economic Development Corporation (KEDC) is beginning our eighth year of retaining and creating job opportunities in Kerrville and Kerr County. The Board is comprised of representatives from the County, City, Economic Improvement Corporation, Kerrville Public Utility Board, Kerrville Independent School District, Kerrville Area Chamber of Commerce, Kerrville Convention & Visitors Bureau as well as two prominent members of the local business community. With the EIC's continued funding support, we will be ready to step into the roles that the Kerrville 2050 Plan has identified for us.

At the beginning of our current fiscal year, prudent questions were raised by some of our funding stakeholders. We realized that we needed the data to substantiate the effectiveness of our efforts to date as well as to seek further input from our stakeholders. We commissioned Impact DataSource of Austin, TX to perform an economic impact analysis of the projects supported by KEDC during 2014-2017. The report showed a total investment of \$4.7M by public entities during 2014-2017 resulting in additional revenues of \$4.9M for public entities during the same 2014-2017 time period. Bottom line being, the public investment was paid back in under four years. In addition to the short payback for the public entities, these projects resulted in approximately \$25M per year in direct, indirect and induced workers' earnings and about \$350M per year in contribution to gross area product. These projects put new property on our tax rolls and provided quality manufacturing jobs that in turn promoted additional activity with retail, housing, visitors, suppliers, etc.

Individual meetings held with stakeholders highlighted the need for us to improve our communications, performance metrics, and reporting. We engaged Avalanche Consulting of Austin, TX to facilitate strategic planning sessions this past winter to look at how communities structure their economic development organizations and to ascertain what tools they utilize to optimize their efforts. These sessions led to the development of KEDC's new 2018-2022 Business

Plan. It is a comprehensive plan with 38 Action Items addressing our four areas of primary focus and performance metrics, marketing, communications, and stakeholder/investor relations.

We are close to releasing what some of us are referring to as KEDC 2.0, which will include the following key components:

- New Organizational Structure with our Chamber Partner
- Additional Stakeholder Participation on the KEDC Board
- Clarified Focus and Action Plan

At the forefront, and highly beneficial, will be the development of the partnership with the Chamber. KEDC will contract for management and support service from the Chamber allowing us to leverage the Chamber's existing business relationships to support our business retention and expansion efforts, streamline resources, and eliminate administrative and staff redundancies.

Despite having 100% employee turnover this year, KEDC has continued to seamlessly support the Go Team with application support and impact studies for funding requests because individual Board members have stepped in to keep things moving. The KEDC Board is committed to our community's success.

During the coming year, KEDC looks forward to working with the EIC and our other economic development stakeholders to address our action items in the Kerrville 2050 Plan. We will also assume a more aggressive role in capturing the notice of manufacturing companies to the opportunities in Kerrville.

Our proposed budget is in line with previous year's budgets, and we are requesting funding from our stakeholders in the amount of \$24,500 each from the City, County and the Kerrville Public Utility Board (KPUB) and \$140,000 from the Economic Improvement Corporation. For next fiscal year we anticipate having:

- A beginning balance of \$111,500.
- Total income from stakeholder funding of \$213,500.
- Normal expenses of \$258,500.
- An ending balance of \$66,500. (We expect that this ending balance will be reduced as we clarify and execute programming for action items in the KEDC Plan and Kerrville 2050 Plan.)

KEDC greatly appreciates our stakeholder's continued support and looks forward to working with the EIC and our other economic development stakeholders. We hope we can count on your support as we move to fulfill our goals and enact KEDC 2.0.

Respectfully,

Mike Wittler
Board President

EXECUTIVE SUMMARY

VISION

The Kerr Economic Development Corporation (KEDC) is a 501(c)(6) non-profit public-private regional economic development organization committed to creating a more prosperous and diverse regional economy. To better serve the region, KEDC proposes to form a Partnership with the Kerrville Chamber of Commerce. As a result, the Partnership, will combine the Chamber's business-to-business network of 1,000 members and access to local resources with the KEDC's technical expertise and connection to regional resources to provide optimum economic development services throughout Kerr County.

Moreover, the newly formed Partnership will seek to eliminate administrative redundancies, reduce operating expenses as well as create a unified vision and voice for penetration into new business markets through enhanced communication efforts, a broad regional business network that will improve KEDC's business retention and recruitment efforts.

MISSION

It is KEDC's mission to adopt a more comprehensive approach to economic development and to aggressively attract, start-grow and retain higher wage industries, talent and jobs. KEDC and Chamber of Commerce will also collaborate with the Convention & Visitors Bureau's regional marketing platform to promote Kerr County and its communities as a primary location for economic investment and business expansion.

KEDC will continue to serve as the area's lead regional economic development organization to recruit and encourage new and expanded business development and a talented business employment pool. Leadership for both organizations will be unified, and the current President and CEO of the Kerrville Area Chamber of Commerce will also serve as the Executive Director of the Kerr Economic Development Corporation.

More specifically, the Partnership will:

- Help existing companies with their expansion needs when requested by the locality or the company.
- Identify and target regional and national companies for recruitment to Kerr County.
- Aggressively market the competitive advantages of Kerr County.
- Develop and promote a region inclusive of and bolstered by its individual community brands.
- Focus on achieving regional success that is broad-based and inclusive of each partner in the community.
- Organize, grow and strengthen higher wage industry across the region.
- Maintain a regional economic development information, research and resource center.
- Promote entrepreneurship and support startup businesses.
- Identify and support regional efforts that lead to a broad and diversified economic base.

Formation of the Partnership will benefit both organizations by:

- Creating a unified vision and voice.
- Delivering additional value to Chamber members through Economic Development technical support.
- Providing KEDC access to the Chamber's relationships and network of members to enhance Business Retention and Expansion activities.
- Enhancing marketing efforts to improve business retention and recruitment efforts.
- Providing a more comprehensive approach to economic development to aggressively attract, grow and retain higher wage industries, talent, and jobs.
- Streamlining resources and eliminating administrative redundancies.
- Improving regional competitiveness through greater awareness of available real estate, financial incentives, workforce and quality of life.
- Strengthen the Chamber's Core Mission to bring together a wide range of business that can share information on competitiveness.
- Creating a "One-Stop Shop" for existing and prospective businesses
- Providing additional professional development for staff.

STRATEGY

It is the KEDC's belief that economic development should increase opportunities for today's businesses, while expanding the possibilities for younger people in Kerr County to stay in the region and obtain nationally competitive jobs.

Therefore, KEDC will aggressively pursue a higher wage job creation strategy that will be developed through a broad-based and inclusive planning effort during 2018. A Five-Year Higher Wage Job Creation Strategy plan will be developed based on industry research and higher wage job creation models focusing on the region's current and emerging advanced industrial sectors. The plan will drive the creation of higher wage jobs in the region overall through new-to-market business recruitment.

STRATEGIC APPROACH & PRIORITIES

The four areas of primary focus for developing a Higher Wage Job Creation Strategy were first developed through a series of strategic planning sessions that were facilitated by Avalanche Consulting of Austin, Texas on December 12, 2017 and January 29, 2018.

1. Business Retention and Expansion (BR&E)
2. Strategic Development Leveraging Existing Community Infrastructure
3. Talent Development
4. Business Recruitment

Revenue to support Kerr County's economic development efforts comes from funding provided by the City and County government and local utility partners. Future funding models will be reviewed as part of the 2018 planning process.

KEDC will continue to focus on the growth of "Primary Jobs" through the use of various tools authorized by Stakeholders and other entities. "Primary Employer" means a business that provides or manufactures goods, services, supplies and/or inventory that are sold predominantly (more than

50%) to customers that permanently reside outside of the immediate region (more than 30 travel miles from the intersection of State Highway 16 and State Highway 27). Primary Job means a job or position employed by a Primary Employer.

Examples of Primary Employers are:

- A manufacturer that produces a good its sales can be predominantly attributed to customers who reside outside of the immediate region.
- A company that provides a service and its sales can be predominantly attributed to customers who reside outside of the immediate region.
- An educational or training institution of higher education that has a student body who predominantly resides outside of the immediate region on a permanent basis.

1. BUSINESS RETENTION AND EXPANSION

KEDC will successfully develop and maintain a proactive direct outreach and prospecting program focused on generating quality leads that can be nurtured and converted into job creation, and job diversification opportunities for the region.

Accelerating regional business and industry expansion is a key component of KEDC's primary business attraction strategy. Maintaining and growing employment, payroll, capital investment and corporate partners foster stability in the regional economy. Therefore, KEDC will continue to address primary industry needs through engagement in cluster development, expansion of financial incentives, technical support and real estate assistance.

Since fierce global competition forces many companies to continually evaluate the best location for their business, KEDC will work in close alignment with its public-sector partners to conduct outreach to target sector firms and encourage/support economic growth and expansion projects. Outreach visits to these sectors will provide valuable insight on business drivers, workforce challenges, and regional competitiveness.

In support of the direct outreach and prospecting program, KEDC offers a full range of services to assist companies as they evaluate Kerr County as a premier and high-quality location in which to locate and grow their companies. Business development activities and strategies will be focused on targeted industries through organized marketing for both inbound and outbound promotion.

Action Items

- Plan and execute a targeted program of regional and national business development.
- Outreach missions targeting select high-impact companies in select markets.
- Plan and execute focused outreach to site selectors, consultants and advisors in key markets.
- Leverage resources by engaging and coordinating business development efforts within Kerr County.
- Support and participate in Governor's Small Business Forum.
- Plan a biennial event to bring Texas site selectors to Kerr County as part of familiarity tour.
- Participate in or sponsor booths at selected targeted industry trade shows/conferences.
- Support the region's communities as needed by hosting select business delegations.

2. STRATEGIC DEVELOPMENT OF INFRASTRUCTURE

Infrastructure is not the end result of economic activity; rather it is the framework that makes economic activity possible.

Action Items

- Continue to develop the Location One Information System (LOIS) property inventory to track changes in commercial and industrial property inventory.
- Create an Industrial Park Plan specific to development of the Hwy 27 corridor.
- Site selectors most often consider hard infrastructure assets when representing clients. Therefore, marketing materials will include information on: 1) number and quality of roadways; 2) airport capacity; 3) availability of electrical, natural gas, water and sewer.
- Work with private property owners to market shovel-ready property.

3. TALENT DEVELOPMENT

Education has been identified as an important determinant of economic growth. Higher levels of educational attainment lead to a more skilled and productive workforce, providing a higher standard of goods and services, which in turn forms the basis for faster economic growth and rising living standards.

Action Items

- Establish a local chapter of the SCORE Association or similar business mentoring program. SCORE is a nonprofit association dedicated to helping small businesses get off the ground, grow and achieve their goals through education and mentorship. SCORE is supported by the U.S. Small Business Administration and volunteers; SCORE delivers services at little or no cost. Kerr County has a significant number of retired Executives that could be used more effectively as mentors, advisors and investors.
- Create strong innovation ecosystems, particularly through initiatives like cluster organizations, business accelerators, and innovation districts.
- Update the Avalanche Consulting Labor Shed Analysis to identify Kerr County's strengths that can be promoted through local training and educational institutions.
- Work with Alamo Colleges, the University of Texas at San Antonio, Workforce Solutions and others to increase regional workforce initiatives in the construction trades that could eventually encourage the development of affordable housing.
- Build solid bridges between the world of work and training programs in order to match skills provision to the needs of local business.
- Create sustained dialogue between employers and trainers, by providing labor market and employment services information as steps to an early identification of skills needs.
- Develop relationships between employers and educators by centralizing data on job placement and workforce trends.
- Develop common definitions of credentials and streamlining the process for employers to implement apprenticeship and cooperative education programs.

4. BUSINESS RECRUITMENT

Although revitalizing a community is less about what you can attract from outside and more about what you can grow yourself, some effort should be made to recruit new business to Kerr County.

Action Items

- Work with Kerr County's more prominent companies to identify suppliers and vendors that may be interested in moving to the area.
- Direct market to companies and site selectors within Kerr County's target industries for relocation to the area.
- Create a local environment/culture for early-stage business through 1) micro-loans, business incubators, business accelerators to cultivate a niche market.
- Work with Mooney International to approach airplane partners about relocation opportunities.
- Work with Mooney International to establish sources of Aviation Engineering for future R&D expansion.

PRIORITY AREAS

In support of a creating a Higher Wage Job Creation Strategy, the KEDC will concentrate time, energy and financial resources in five priority areas.

1. COMPETITIVENESS IMPROVEMENT

- **Regional Business Identity and Brand:** Launch a collaborative community-based effort supported by the CVB, to strengthen, merchandise and promote the region's business identity with a focus on Kerr County and the City of Kerrville as business-friendly and a good place for business.
- **Higher Wage Industry Growth:** Support and assist in efforts to organize, develop and accelerate growth and the competitive position of the region's current and emerging higher wage industry sectors.
- **Competitive Product Strategy:** Partner with (Alamo Colleges, Schreiner University, UTSA, KISD, Workforce Solutions and others) to improve the region's competitive position in the areas of workforce and talent recruitment.

2. MARKETING AND PROMOTION

- **Middle-Market Recruitment:** Focus business outreach efforts on attraction and recruitment of small to mid-sized businesses, within Austin and San Antonio MSA, identified within the target industry sectors that can broaden the local employment base while allowing the local infrastructure to develop.

3. BUSINESS DEVELOPMENT AND PROMOTION

- **Site Locaters, Consultants and Advisors:** Elevate awareness of the opportunities in Kerr County through proactive outreach to site locaters, consultants and industry advisors.

4. BUSINESS NETWORKING

- **Economic Forum:** Work with City and County leaders to organize and launch an Economic Forum to create a peer region benchmarking program with Fredericksburg and Boerne to inform/educate regional leadership about common issues/concerns such as workforce, affordable housing and education/skills development.
- **Enhanced Company/Industry Research Platform:** Collaborate with UTSA, Alamo Colleges, Texas A&M Real Estate Center and Schreiner University to strengthen research capability and data collection in target sectors.

5. INVESTOR RELATIONS AND ENGAGEMENT

- **Investor Relations and Engagement:** Bring together a cross section of business community members to review, analyze and understand investor opportunities, frame new investment tiers and support opportunities.

PROGRAM MEASUREMENT AND EVALUATION

KEDC is a strong proponent of the belief that “what gets measured gets done”. Measurement can be a powerful catalyzing force to engender a more inclusive overall economy. Therefore, the KEDC’s approach to program evaluation includes three types of assessment.

1. **Monitor Progress:** Success in carrying out program activities on schedule and within budget.
2. **Evaluate Effectiveness:** Determine whether efforts achieve prescribed objectives.
3. **Measure Impact:** Assess positive changes in the overall environment that relate to program actions.

Within this context, the KEDC will develop a system of performance assessments that evaluates both historical performance and functions as a management tool to drive future actions and results. With a clear understanding of what performance areas should be measured, KEDC can also develop a best practice approach to setting specific performance targets and goals.

TOP-LEVEL METRICS AND PERFORMANCE INDICATORS

The following chart illustrates potential top-level Key Performance Indicators (KPIs) that have been identified to measure future performance. Specific threshold and target goals will be determined as performance is measured and monitored in the future.

Action Items

- Design and implement a Quarterly Project Activity Report (Exhibit D) covering regional progress and organizational performance.
- Conduct specialized research, reports as required to highlight Kerr County's: business climate and cost; industry base; physical infrastructure; real estate availability; and talent pool.
- Convene biannual workshops with partnering agencies (City, County, EIC and KPUB) to refine program benchmarks.

TARGETED INDUSTRIES & SECTORS

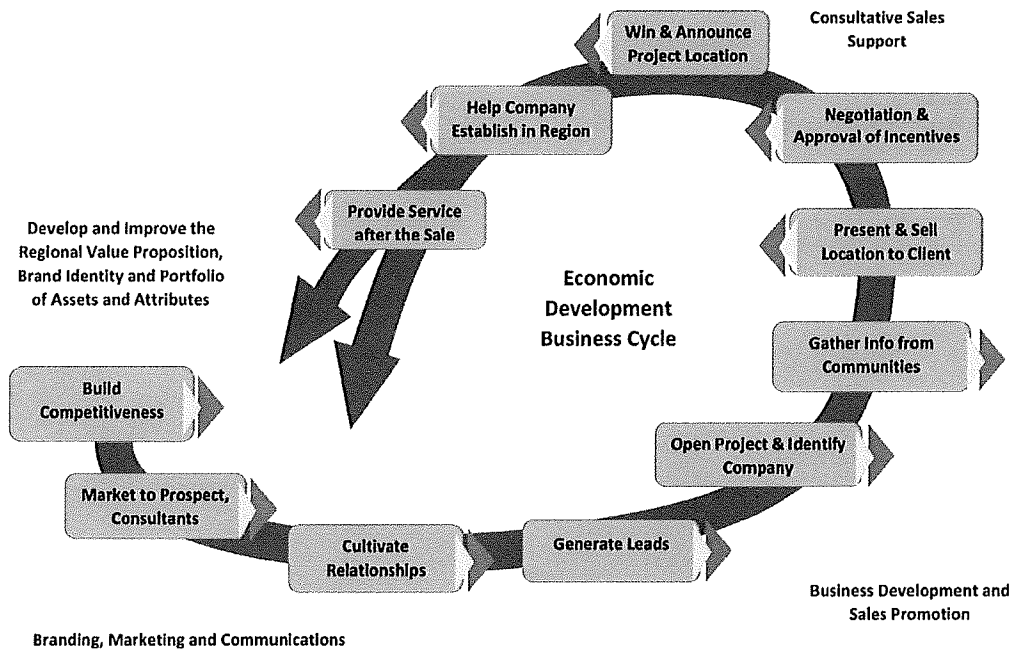

KEDC will continue to target industries where Kerr County has a natural advantage. Industry sectors that job creation efforts are focused on will periodically be reevaluated. The sectors currently being focused on include:

- Advanced Manufacturing
- Aviation, Aerospace & Defense
- Craft Agriculture
- Energy
- Food Processing & Storage
- Information, Analytics & Security
- Life Sciences & Healthcare

STRATEGIES, OPERATIONAL PLANS AND TACTICS

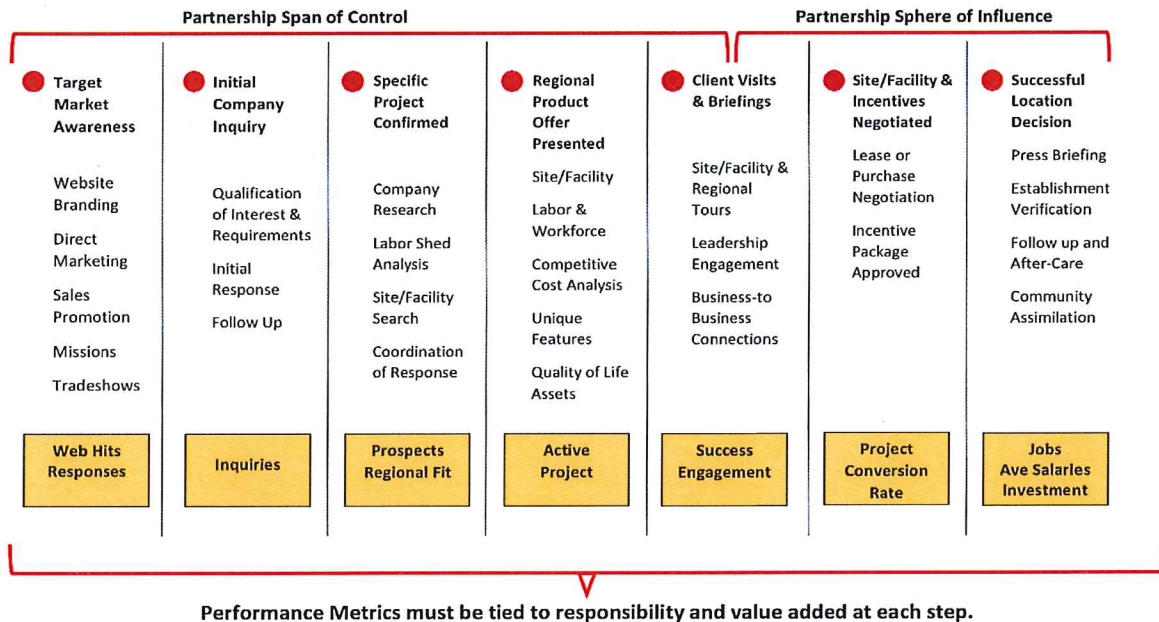

KEDC will concentrate its efforts where it can add value in the economic development business cycle.

Exhibit B

The chart below illustrates, how through “The Partnership,” KEDC will be more capable of shifting resources throughout the site selection process to ensure better business recruitment and attraction results.

KEDC Action Chart

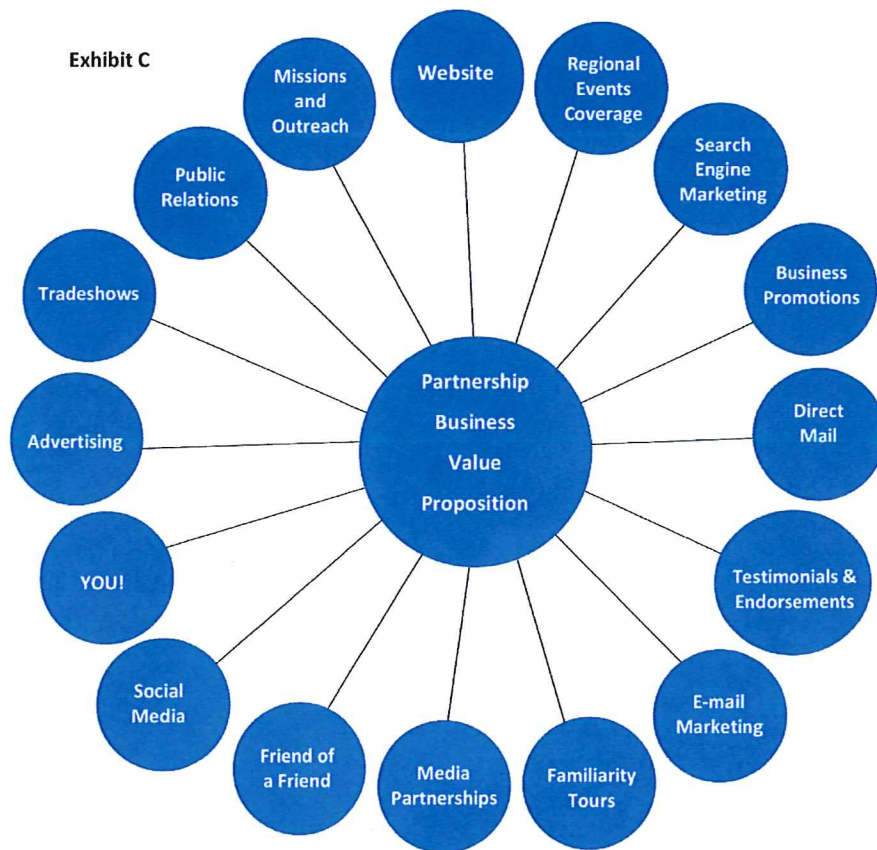

MARKETING & COMMUNICATIONS

As 2018 is the initial year of the KEDC’s revised organizational structure and business plan, a marketing and promotional campaign will be required. A marketing campaign is necessary to create more opportunities to present the region’s locational advantages to qualified business and industry prospects.

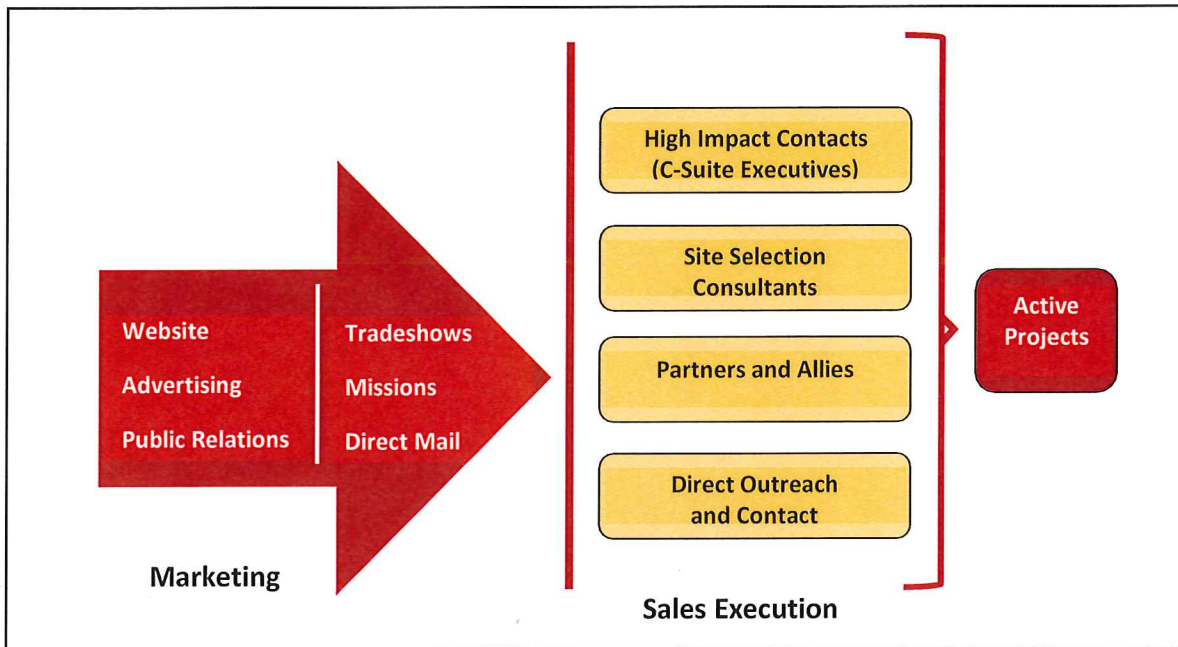

The program includes a stronger branding program along with specific marketing and promotional program enhancements. The marketing campaign’s focus is on enhancing and building perceptions about Kerr County. This will be accomplished by marketing through a variety of means including advertising, direct mail, and website content as demonstrated in (Exhibit C).

Exhibit C

Impact measures will include new leads that come directly as a result of the marketing and promotional campaign within targeted industries. The ultimate goal of the marketing campaign is to convert these leads into new business opportunities, new capital investment and new job creation for the region.

The image below demonstrates how coordinated marketing and branding efforts drive traffic to KEDC and manifests itself in terms of inquiries, leads and prospective business and industry clients. The Chamber of Commerce and the KEDC in collaboration with its regional partners will work to convert the increased traffic, leads and prospects into new business investment projects.

Action Items

- KEDC will conduct baseline research, regional identity/brand audit and prepare regional positioning assessment, retail and labor shed analysis, and business case.
- Organize and drive development of a regional identity and brand strategy platform, and an overall regional marketing and communications strategy and plan.
- Design and implement direct marketing and outreach to both site selection consultants and c-suite executives within targeted industries.
- Directly support and assist in the implementation of out-of-market business development missions to spread the Kerr County business identity message, positively change perceptions and generate leads.
- Continually refine and upgrade the messaging of the KEDC and Chamber website to coordinate messaging.
- Plan and executive a comprehensive regional communications program to ensure business and government leaders, stakeholders, partners and investors are educated and informed about the KEDC's efforts to implement the Five-Year Higher Wage Job Creation Strategy.
- Strategically involve local partners, stakeholders and investors in all efforts to spread the message of the Kerr County business identity.

INVESTOR RELATIONS & EVENTS

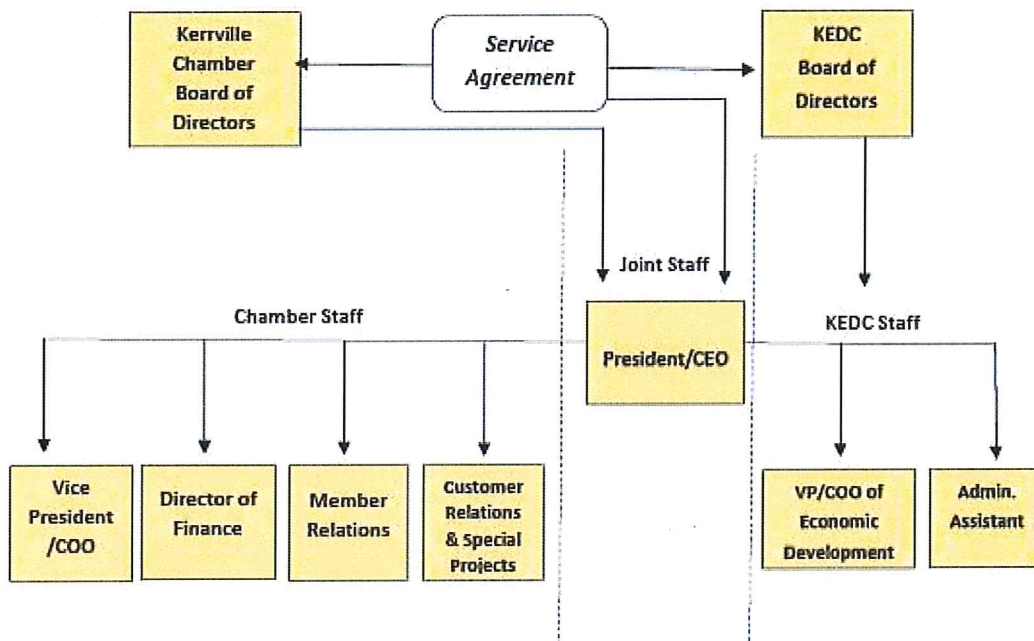

The KEDC's value is enhanced by effectively engaging both public and private stakeholders.

Action Items

- Organize and staff investor relations meetings to review, analyze and understand investor concerns, new investment opportunities and regional support efforts.
- Plan, organize and recruit attendance for two (2) Investor Update sessions across the region.

MANAGEMENT & OPERATIONS

The Partnership team is organized in a way to bring staff members of the Chamber and KEDC closer together under a single Executive responsible to both Boards. This organization is expected to eliminate administrative redundancies, streamline resources, and create a unified vision and voice. The Chamber retains the Executive as an employee and the KEDC contracts for services from the Chamber through a Service Agreement. The Executive will be the initial shared resource and other sharing will be considered as the Partnership develops. Formation of the Partnership does not require modification to either Organizations' Bylaws, and the Service Agreement will have a cancellation option with notice requirements. KEDC Staff will be hired through a KEDC Board approved process that involves the Joint President/CEO.

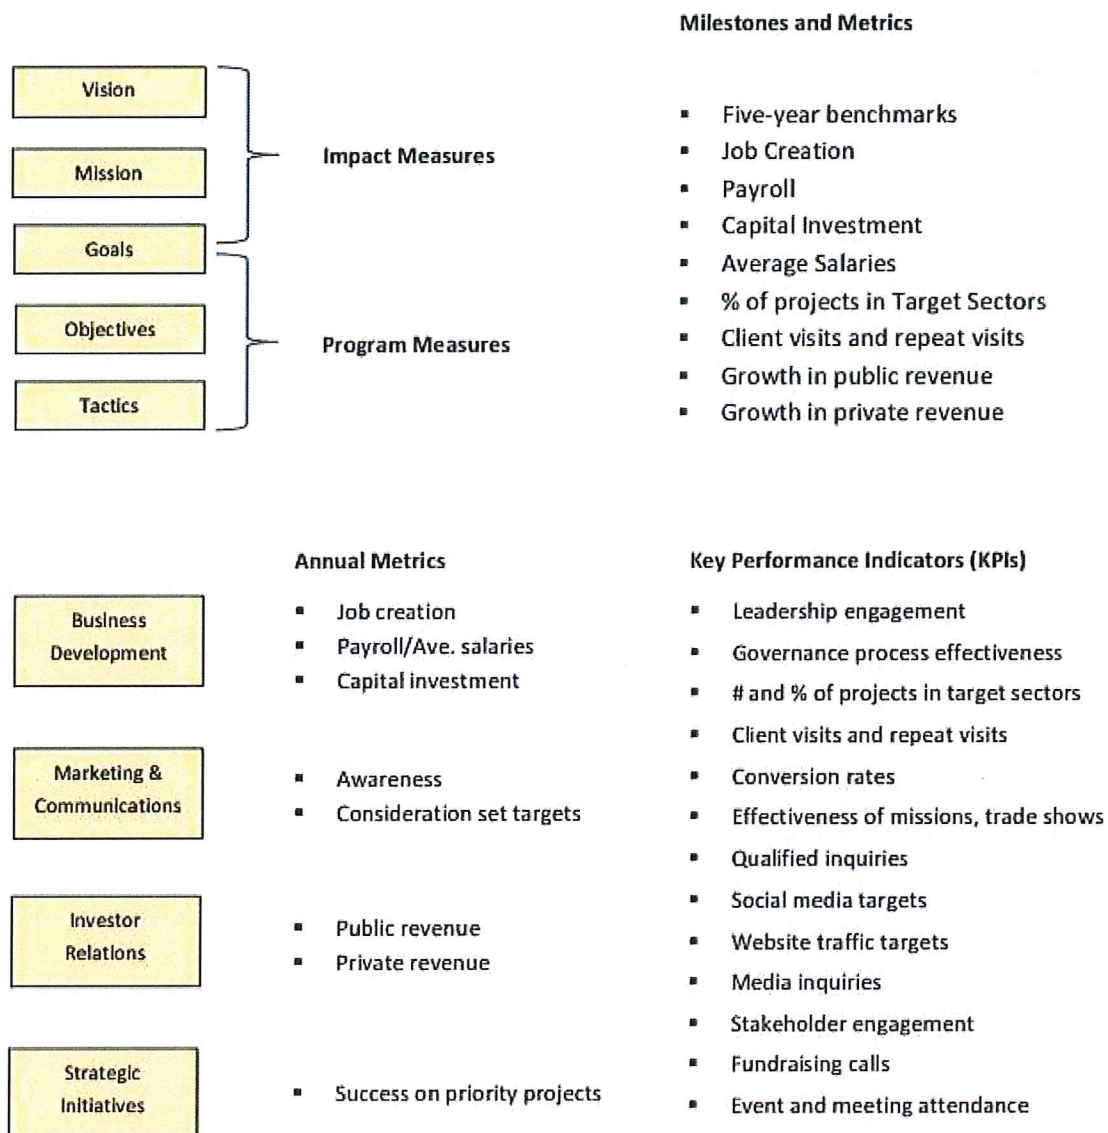

BUDGETS & FUNDING

The proposed operating budget is shown below in Table 1. The table shows the current year, 2017/2018 Budget, 2017/2018 Forecast Year End Budget Performance, and the Proposed 2018/2019 Budget. Funding requests for 2018/2019 are the same as 2017/2018. Contract Services are increased primarily due to the engagement of a recruiter to fill the vacant VP/COO of Economic Development position. Operations is down due to reduced office lease cost with the Chamber Partnership. We recognize that there is a need to enhance the efficiency of our economic development efforts and believe that there are opportunities to make improvements through economies of scale and efficiency improvements.

LEGAL ENTITY

The Kerr Economic Development Corporation (KEDC) received its certificate of incorporation from the Texas Secretary of State on July 14, 2015. The business affairs of the KEDC are conducted by a board of 9 directors, all of whom have one vote on any proposition coming before the commission. As of July 2018, the KEDC Bylaws are being revised to add one additional director for the City of Kerrville and one additional director for the Kerr County Commissioners Court.

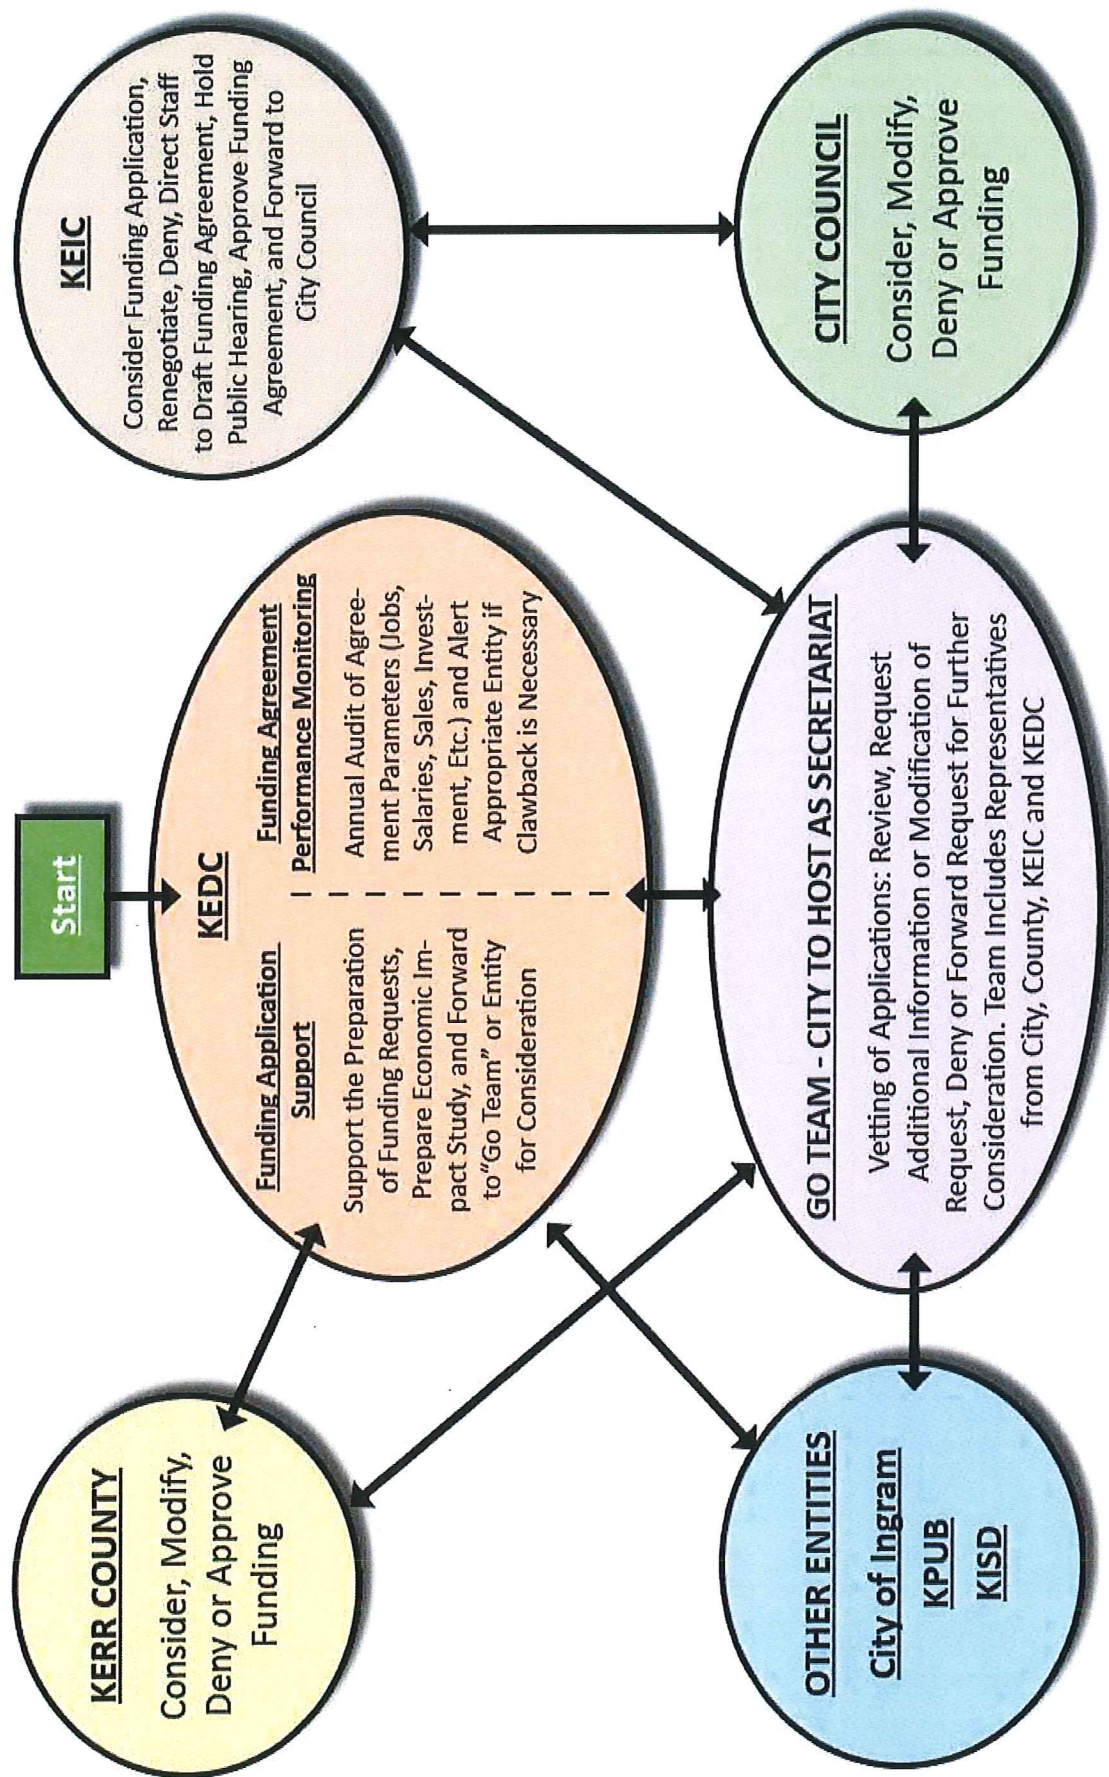

The day-to-day management of the organization is entrusted to a hired executive director that is evaluated annually by the board of directors. The leadership regularly meets the first Thursday of each month at 7:30 A.M. for monthly meetings. The officer seats of chair, vice-chair, treasurer and secretary are selected at the scheduled annual meeting in January.

PROPOSED COMPOSITION OF THE KEDC BOARD OF DIRECTORS

- One (1) representative from the Kerrville City Council (appointed by the City Council)
- One (1) representative from the Kerrville City Administration (appointed by the City Manager)
- Two (2) representatives from the Kerr County Commissioners Court (appointed by the Commissioners Court)
- One (1) representative of the Economic Improvement Corporation (appointed by the Economic Improvement Corporation)
- One (1) representative from the Kerrville Public Utility Board (appointed by the KPUB Board)
- One (1) representative from the Kerrville Chamber of Commerce Board of Directors (appointed by the Chamber of Commerce Board)
- Two (2) representatives from the Business Community (appointed by the KEDC Board)
- One (1) representative from the Kerrville Convention and Visitors Bureau (appointed by the CVB)
- One (1) representative from the Kerrville Independent School District (appointed by the KISD Board)

ECONOMIC DEVELOPMENT STAKEHOLDERS, PROCESSES, ROLES AND TOOLS

The charts below illustrate the current processes, roles and tools for handling funding requests by the Stakeholders in our community. The first chart shows KEDC providing primary support for funding applications and the Go Team vetting those applications. The Go Team routes applications to the appropriate entities to consider those applications. A large project could have multiple applications being considered by different entities at the same time. The second chart illustrates each KEDC Stakeholder's lead role(s) and the types of tools or support provided by that Stakeholder.

SUMMARY STATEMENT

This budget allocates \$3,482,686 for Fiscal Year 2019.

Revenue projections for Fiscal Year 2019 are \$3,514,052. The Fiscal Year 2019 Economic Improvement Corporation budget is projected to end the year with an unrestricted cash balance of \$1,161,994. Fiscal Year 2019 net revenues are projected to exceed net expenditures by \$31,365.

The Fiscal Year 2019 budget allocates expenditures for Administrative, Category 1 – Business Development, Category II – Quality of Life, and Category III – Public Infrastructure categories. The following allocations have tentatively been drafted for your review:

Administrative = \$370,500

- Includes a contribution to the Kerrville Economic Development Corporation at \$140,000 (TBD determined based on the new service contract).
- Administrative Services Fees to the City of \$180,000. There are two key components to the request for enhanced funding. Finance ran an analysis of staff time spent for EIC support (Finance/Budget/Audit, Engineering/Project Management, City Attorney, City Administration, etc.) and \$150,000 is much closer to cost recovery (although still not full cost

recovery). This amount has also not been adjusted since 2012 (\$75K to \$100K). In addition, staff is proposing to add an additional staff support position to City operations (General Fund) that will assist the City/EIC with general economic development efforts, as well as business related activities for Downtown/Main Street, and workforce housing initiatives. Staff anticipates that approximately 40% of the position's efforts will be allocated to EIC support, so that has also been added to the Administrative Support Funding Request.

- Also includes a one-time transfer of \$50,000 to a new administrative set-aside fund, should the EIC desire to fund some type of economic development related consultant study, or need outside professional consultation beyond that outlined in the City or KEDC administrative contracts.

Category I – Business Development = \$500,000

- Consists of an economic development set-aside of \$500,000;
- Annual unexpended allocations for economic development set-aside are swept into a fund balance for economic development purposes; the ED set-aside is projected to reach \$2,000,000 at the end of Fiscal Year 2018.

Category II – Quality of Life = \$1,362,186

- Includes debt service payments for the River Trail and Athletic Complex projects.
- Includes a new Quality of Life set-aside which, if unspent, would be swept into a fund balance for future quality of life project requests.

Category III – Public Infrastructure = \$1,250,000

- Includes a \$250,000 allocation for Workforce Housing; the capital project fund for this sub-category is projected to reach \$850,000 at the end of Fiscal Year 2018.
- Provides for an initial allocation of the \$1,000,000 for the Legion Lift Station project (the City Council and EIC have a Funding Agreement for \$2.0 million to fund the wastewater expansion project).

The Economic Improvement Corporation budget is included as a Component Unit Fund in the City's overall annual budget.

SUMMARY STATEMENT

The EIC operating fund received sales tax revenue of \$286,255 for June 2018, which is up 9.28% compared to same period in the prior year. On a year-to-date basis, FY2018 sales tax is up 1.45% compared to FY2017. In June, we saw increases in the areas of retail, wholesale, and construction. We recently received July sales tax and it is up 8.28% compared to July 2017. Even with these improvements, we anticipate that sales tax revenue will fall short of budget for the year.

Expenditures for the month were \$101,743 and included budgeted transfers for debt service and the administrative service fee in addition to small charges for supplies and a filing fee. There were no funds moved for project expenses in June.

EIC's money is invested primarily in TexPool, which currently earning 2.15%
