City moving to Stage 1 Moderate Water Conservation measures

Kerrville, Texas (Aug. 16, 2022) – Due to continuing drought conditions, the City of Kerrville is shifting from Year Round Water Conservation measures to Stage 1 Moderate Water Conservation measures effective 12:01 a.m. on Wednesday, Aug. 17, 2022. While the Kerrville community has invested for decades in a robust water supply that has helped forego Stage 1 measures up to this point, Stage 1 measures will hopefully help further reduce demand and conserve water resources for critical potable uses if the drought persists. Please help do your part and conserve wisely. Stage 1 Moderate Water Conservation measures will remain in effect until further notice, but likely through at least the end of August.

The watering schedule for Stage 1 allows for landscape and lawn watering with hose-end sprinklers or automatic irrigation systems from 6-10 a.m. and 8 p.m. - 12 a.m. on Tuesday and Saturday for street addresses whose last digit ends in an odd number, and 6-10 a.m. and 8 p.m. - 12 a.m. on Wednesday and Sunday for street addresses whose last digit ends in an even number.

Landscape watering with a hand-held hose is allowed every day and any time for all addresses in Stage 1.

Stage 1 measures do not affect the city's reuse water customers, which include three area golf courses, the Sports Complex, and the Tivy High School and Schreiner University athletic fields.

The City of Kerrville Water Management Plan can be found on the city's website at <https://www.kerrvilletx.gov/512/Water-Restrictions>.

		Safe Operating Capacity (SOC) is 75% of total operating capacity.
