SUMMARY STATEMENT:

The City held its general election on May 6, 2023. Following the election, but before the canvass occurred, the City received a petition for a recount as to the contest for the office of Councilmember Place Two. City Council, pursuant to the state's election laws, conducted the canvass for this election by adopting Resolution No. 15-2023. This resolution canvassed the election results determined by the election officials. Following the Council's adoption of this resolution, the person elected to the office of Councilmember Place One, Councilmember Roman Garcia, took the oath of office.

On Friday, May 19, 2023, the City conducted a recount. At the conclusion of the recount, conducted in accordance with the state's election laws, the recount committee issued a report based upon their hand-count showing a change in votes for the election. Thus, based upon their report and state law, City Council must now conduct a new canvass for the office of Councilmember Place Two, which will have the effect of voiding the previous canvass with respect to this position.

RECOMMENDED ACTION:

Approve Resolution No. 17-2023.

Kerrville 2050 Item?	Yes
Key Priority Area	D - Downtown Revitalization
Guiding Principle	N/A
Action Item	D5.3 - Make Downtown more pedestrian-friendly by improving walkways, adding accessibility ramps, beautifying the area with landscaping and street trees, etc.

SUMMARY STATEMENT:

At the May 11, 2023 Tax Increment Reinvestment Zone (TIRZ) meeting, the TIRZ board recommended funding \$40,000 for a pedestrian crosswalks and ADA accessibility project at the intersection of Clay Street and Water Street for improvements, including an all-way stop, pedestrian crosswalk striping, and ADA accessible curb ramps within the City's Tax Increment Reinvestment Zone.

The project to be funded by this request specifically aligns with Chapter 310.010 of the Local Government Code, which dictates that TIRZ funds can be utilized for the construction of a road, sidewalk, or other public infrastructure in or out of the zone, including the cost of acquiring the real property necessary for the construction of the road, sidewalk, or other public infrastructure.

This proposed project involves the construction of pedestrian ramps at the intersection, the

installation of all-way stop signs, and pedestrian crosswalk striping.

Texas Tax Code Sections 311.008(b)(1) and (b)(4)(B) are applicable to this project because they will upgrade the pedestrian access in the TIRZ district through reconstructed sidewalks, and reconstructed pedestrian signalization.

(b) A municipality or county may exercise any power necessary and convenient to carry out this chapter, including the power to:

(1) cause project plans to be prepared, approve and implement the plans, and otherwise achieve the purposes of the plan;

(2) acquire real property by purchase, condemnation, or other means and sell real property, on the terms and conditions and in the manner it considers advisable, to implement project plans;

(3) enter into agreements, including agreements with bondholders, determined by the governing body of the municipality or county to be necessary or convenient to implement project plans and achieve their purposes, which agreements may include conditions, restrictions, or covenants that run with the land or that by other means regulate or restrict the use of land; and

(4) consistent with the project plan for the zone:

(A) acquire blighted, deteriorated, deteriorating, undeveloped, or inappropriately developed real property or other property in a blighted area in the zone for the preservation or restoration of historic sites, beautification or conservation, the provision of public works or public facilities, or other public purposes;

(B) acquire, construct, reconstruct, or install public works, facilities, or sites or other public improvements, including utilities, streets, street lights, water and sewer facilities, pedestrian malls and walkways, parks, flood and drainage facilities, or parking facilities, but not including educational facilities;

RECOMMENDED ACTION:

Approve Resolution No. 16-2023.

Kerrville 2050 Item? Yes

Key Priority Area W - Water / Waste-Water / Drainage

Guiding Principle N/A

Action Item W5.2 - Enhance KLS basin capacity and improve service reliability

SUMMARY STATEMENT:

Birkdale Lift Station was built in 2016 and has the largest wastewater capacity in the collection network. The station operates with three pumps, which are all in use and function in cycles. Pumps typically require maintenance throughout their lifespan. A pump failure would result in unfavorable conditions to include stress on the remaining pumps and a large expenditure to implement a bypass system. Furthermore, estimated lead times for pump replacement is at least 3-5 months. This pump was budgeted in the FY2023 adopted budget at \$96,000 within the Water Asset Replacement Fund. Due to inflation, the price has gone up substantially. The Wastewater Collection Division has delayed this purchase in hopes of receiving lower quotes with the leveling of inflation. The quote attached is the best price available to-date and approval is recommended in order to ensure this lift station is able to be repaired quickly in the event an existing pump fails. Funding to cover the \$54,000 difference between budget and actual cost will come from the Water Asset Replacement Fund Balance. This fund currently has collected \$9,000 more in revenue from asset disposal and interest than budgeted and approximately \$8,000 in savings from leased vehicles budgeted but not yet received. Fund balance is adequate to cover the excess \$30,000. This purchase is compliant with the City's purchasing policy using the Sole Source letter attached.

RECOMMENDED ACTION:

Authorize the City Manager to finalize and execute this purchase.
