### **Come join the library's LEGO sessions every Wednesday**

**Kerrville, Texas (June 16, 2025)** – The Butt-Holdsworth Memorial Library's Summer Reading Program is off to an inspiring and imaginative start! Among the standout moments from last week's events was this creative LEGO build by Garrison Koerlin, who recreated the Tivy High School football stadium—complete with goalposts, yard lines, and the iconic “TFND” (“Tivy Fight Never Dies”) spelled proudly in block letters.

This impressive design emerged during one of the library's twice-weekly LEGO sessions, held every Wednesday at 10 a.m. and again at 2 p.m. These sessions are part of a broader Summer Reading Program aimed at keeping kids engaged, curious, and learning all summer long.

“Summer Reading is about more than books. It’s about creativity, exploration, and building skills that fight back against the ‘summer slide’ when school is out,” said Library Director Diane Miller. “Whether it’s through reading, hands-on projects like this, or science activities, we’re helping kids hold onto what they’ve learned and even discover new interests.”

The 2025 Summer Reading Program runs through July 31, and it all wraps up with a festive Awards Party complete with pizza, prizes, and of course, some great books!

The best part? It’s never too late to join. Registration is open throughout the summer, and all programs are free and open to everyone — you don’t even need a library card to participate, although we are always thrilled to welcome new library users and cards are free to anyone in Kerr County. From LEGO building and Storytimes to two-stepping and book clubs, there’s something happening almost every day.

Come explore, imagine, and read with us. Let’s stop the summer slide and have a blast doing it!
