FOR IMMEDIATE RELEASE

**Comanche Trace Named as one of the
50 Best Master-Planned Communities in the United States**

Kerrville, Texas (June 28, 2013) – *Where to Retire* Magazine reveals “The Short List: 50 Best Master-Planned Communities in the United States” in the bimonthly magazine’s July / August issue which hit newsstands in June 2013. Only two Texas communities were honored in this list, Robson Ranch Texas Resort Community in Denton and Kerrville’s very own Comanche Trace. The magazine highlights communities for active-adults and master-planned living. Many retirees today seek a dynamic and fulfilling retirement lifestyle, looking for communities with friendly neighbors, top-notch amenities, and a relaxing environment to keep their minds and bodies active.

Research began nearly a year ago when *Where to Retire* editors gathered information on more than 150 communities across the nation and eventually zeroed in on those that are amenity-rich, with clubhouses, recreation and activities to help residents stay fully engaged.

It’s easy to see why Comanche Trace was selected as one of the Texas jewels. From the championship golf course to the amazing views of the Guadalupe River valley and every amenity in between, Comanche Trace offers a lifestyle to match no other in the Texas Hill

Country. Residents of Comanche Trace can enjoy the immediate rewards of an established and active club and have the security in the strong roots anchoring the development. Some of the fine amenities include: Golf and hilltop homes, 27 holes of Championship Golf, 15 acre practice facility, fine and casual dining, Golf Pro Shop, fitness facility with personal trainers, trails, fishing lake, swimming pool and spa, tennis courts, community garden, children's play area, event-filled social calendar, and stunning views and an abundance of wildlife and wildflowers to ensure a true Hill Country experience.
