

Application for Temporary Fire Hydrant Meter Permit

Applicant _____

Company Name _____

Company Address _____

City _____ State _____ Zip _____ Phone Number (____) _____

Applicant Signature _____ Cell (____) _____

The following requirements must be adhered to prior to the issuance of a Temporary Fire Hydrant Meter Permit:

1. An Application for a Temporary Fire Hydrant Meter Permit must be completed and filed at City Hall.
2. A deposit of \$2,750.00, an RPZ testing fee of \$200.00, and a new account fee of \$25.00 must be paid prior to installation of the meter assembly.
3. The City will supply a meter, backflow prevention device (RPZ), and operational gate type valve. The assembly will be tested and approved by the City prior to use.
4. Applicant agrees to operate the supplied gate valve only. The gate valve shall be operated in a slow manner to minimize water hammer. At no time may the Applicant operate the fire hydrant.
5. The Applicant cannot relocate any part of the meter assembly.
6. If the Applicant desires the assembly to be relocated or removed, the Applicant must notify the City in writing. If the City relocates the assembly by Applicant request, the Applicant will be charged \$150.00 for testing of the backflow device and labor. All fees must be paid in advance.
7. If the Applicant has not used the temporary fire hydrant meter for a period of ninety (90) calendar days, the meter set-up will be returned to inventory and the remaining deposit will be refunded.
8. Use and volume are subject to the City's water conservation ordinance and restrictions.
9. The City will read the water meter and bill the Applicant at the end of every month. Water sold out of these fire hydrant assemblies shall be billed at the City's irrigation rate, which may be changed from time to time.
10. If an Applicant is more than twenty-five (25) days delinquent in providing payment to the City, the assembly will be removed.
11. An Applicant's deposit will be returned less any damages or outstanding payments owed to the City.
12. It is the responsibility of the Applicant to maintain the assembly in good working order at all times. Excessive leakage will be grounds for removal of the assembly by the City.
13. The Applicant is responsible for any and all hardware or equipment property damage associated with the installation.

Physical address of fire hydrant: _____

Second location: _____

This will be used if first choice cannot be used.
