If your garbage day is on **MONDAY**, this is your Yard Waste collection week.

If your garbage day is on **TUESDAY**, this is your Yard Waste collection week.

If your garbage day is on **WEDNESDAY** or **THURSDAY**, this is your Yard Waste collection week.

- **For all collection weeks, yard waste must be placed out by 7:30 a.m. on Monday.**
- **Collection crews will begin on Monday and continue throughout the week.**
- **Collection Vehicles will only service a street once, so it is important to have items out by Monday.**

“In 2018, Republic Services averaged just over 60 tons per month for yard waste collections,” Assistant Director of Public Works David Barrera said. “Trying to collect yard waste from the entire city in one week is becoming more difficult for our contractor. It does not leave any room for unforeseen circumstances, such as mechanical issues or a huge spike in residential participation due to weather events. The idea to separate the collections into multiple zones services over three separate weeks will improve efficiencies and decrease the possibility of delays. Our main objective when making changes is to ensure that citizens receive a service level that sustains excellent customer service and minimizes the time that yard waste is at the curb, and I believe this change will achieve that.”

Further inquiries regarding yard waste collections can be made by contacting Republic Services at (210) 304-2700, or the City of Kerrville at (830) 257-8000. Additional information is also available online at [www.kerrvilletx.gov](http://www.kerrvilletx.gov) .
